This certificate tells you whether this vehicle has been given the 'all clear' by HPI after a comprehensive search on the following registers:

VIN Match

Compares the Vehicle Registration Mark (VRM) against the Vehicle Identification Number (VIN), where your dealer has provided both, to try to detect a 'ringer' or "clone", i.e. a stolen vehicle with a false identity.

Vehicle Identity

Does the vehicle match the description recorded at DVLA? Details of all road registered vehicles are recorded at HPI and the HPI Check reflects information recorded on the vehicle's official V5 document.

First Registration

HPI confirms the vehicle's first date of registration in the UK to help establish the true value of the vehicle.

Outstanding Finance

Over half of new cars are bought using finance agreements, making them the property of the finance company until the debt is cleared. HPI has over 7 million records on this register, against which this vehicle has been searched to highlight any outstanding debt.

Condition Alert

Has a car been 'written-off' by an insurance company following major damage or theft? The HPI Check searches over 14 million records to make sure the vehicle is not a total loss or now belongs to an insurer.

Condition Inspected

HPI has a unique register of former damaged 'write-offs' which have passed an inspection against a Thatcham approved standard to confirm the integrity of the repairs.

Stolen Vehicles

Any vehicle currently recorded by the police as stolen or missing is highlighted in the search.

Security Watch

Some vehicles such as hire cars, are at special risk from fraud or theft. This register checks for vehicles that are flagged as 'at risk' and being offered for sale without the owner's consent.

Plate Transfer

Plate transfers are perfectly legal, but can be used to cover a dubious past. An HPI Check will automatically pinpoint all plate transfers since April 1990 and make sure that none of the prior identities have anything to hide.

Mileage

The National Mileage Register (NMR), with over 125 million readings, can help reveal discrepancies in a vehicle's mileage history.

If you would like further information on the HPI Check for this vehicle, then please call our Validation Hotline on: 0845 301 1844. (Mon- Fri 8am to 8pm; Sat 8am to 5pm; Sun 10am to 5pm).

HPI Checks are not transferable. The results shown above, for the VRM or VIN provided, were believed to be correct on the date and time they were supplied to the HPI subscriber whose name appears above. These details are very likely to change over time. To conduct your own HPI Check, with a £30,000 guarantee (subject to terms and conditions), visit www.hpicheck.com or call 01722 422 422.

the genuine article

Fuel Economy - Used Cars

Reg No. KN14VXU

CO₂ emission figures (g/km)

F 148 g/km

Fuel cost (estimated) for 12,000 miles

A fuel cost figure indicates to the consumer a guide price for comparison purposes. This figure is calculated by using the combined drive cycle (town centre and motorway) and average fuel price. Re-calculated annually, the cost per litre as at Mar 2014 is as follows - petrol 129p, diesel 136p and LPG 72p.

£1443

VED for 12 months

Vehicle excise duty (VED) or road tax varies according to the CO₂ emissions and fuel type of the vehicle.

£145

Important Note

The fuel consumption figure shown is taken from the official test results obtained from this vehicle type when new. It is intended to provide a standard figure for comparing the relative fuel economy of different vehicles of a similar age and condition and does not represent the average fuel consumption that will be achieved on the road. A number of factors not included in the official new vehicle test will affect the fuel consumption achieved on the road including: vehicle age, how it has been maintained, road/weather conditions and driving style.
