2007 BMW 535d M-Sport Twin-Turbo Diesel Facelift 4 Door Saloon, 6 Speed Automatic. 3.0 Litre, In-Line_6 Cylinder 24-Valve DOHC, 286BHP / 580Nm Bi-Turbo DIESEL. One Previous Owner with F/BMW/S/H and 28387 miles. There is no other car that can impress more in combining sporty comfort with luxury than the Bi-Turbo 535d M-Sport Saloon. She has been crafted with so many tasteful design enhancement features that it would easily fill a sizeable novel. Finished in Le Mans Blue Metallic with White-Cream Leather, this 5-Series flagship luxury sports saloon is without equal. As such it rivals models such as the Mercedes-BENZ' E320CDI and Audi's A6 3.0TDI and they are sadly put to shame when placed on a racetrack side by side. This modern Diesel is now the undisputed king of the black top. The performance potential of this twin turbo-charged 3.0 litre Straight-in-line 6 cylinder 24valve diesel power plant will induce sweat into the most able A6 3.0TDi and/or the E320-CDi driver. It packs such a bracing punch with its 286BHP @ 4400rpm by courtesy of its staggeringly fierce a la 580Nm torque between 1750-2250rpm, that it gives her an exhilarating pace that is simply breathtaking. She is smooth and plush, and the ride and handling faithfully combines cossetting comfort with decent feedback and control. This six-cylinder cracker with a burble that is truly addictive results in an impressive 0-60mph that growls her way as soon as you hit pass the firewall in just 6.2 seconds with a top speed limited by design to 155mph. Now for a car that is just under two tons in weight [1.735 tonnes actually] that is impressively agile performance. Furthermore, this hugely capable and talented all-rounder, particularly in this DIESEL guise is arguably the best diesel luxury car today, bar none. What is incredible, her power plant also provides you with an excellent all round fuel economy of just over 42mpg. The car benefits from BMW's new Efficient Dynamics programme. The cleverest part of this in the 535d, is the Intelligent Alternator Control with Brake Energy Regeneration system. To tell the tale simply, the 535d recharges its battery partly through energy recovered during braking and coasting, and the alternator is activated only when needed, which improves performance, fuel economy, and CO2 emissions. All in all, a win-win-win situation for BMW and the one who pays for the fuel. Combine this with BMW's legendary rear wheel drive, the matching sportiness of the electronically controlled dampers, the new facelift's modern body construction and an elegant interior Designo piano black décor and go and add to that ergonomically designed plush seats in unique and unblemished Designo White-Cream-Beige Leather and you have in this 535d, a car that is setting the highest standards in performance, luxury and driving excellence. When you then are comfortably settled behind her new M-Sport steering wheel with her plethora of buttons plus her over-head displays you cannot help but imagine you are about to pilot a Tornado F3 with enough on-board computing power to help you take-off exhilaratingly. With a myriad of manufactured extras so skilfully placed around the dashboard and centre console all desirably generating confidence instead of rivalry, sensation instead of sensationalising. These are the attributes make BMW's 535d, the true luxury performance sports diesel of the 21st century. An incredible car with an unbeatable value. That is the ingenious of Munich in living form, which is what makes an everyday reality of this the Ultimate Driving Machine. Why not participate in this incredible driving experience daily, and become part of BMW's luxury world today. Driving this car is a unique opportunity well worth experiencing and thereafter owning such a stupendous driving machine is truly a dream come true. A car conceived and built for the special in YOU! This particular 535d has been dubbed by BMW with "Best Vehicle" designation and is finished in unique Individual/Designo Le Mans Blue Metallic [381] with unblemished Individual/Designo White-Cream-Beige [Z1XX] Leather interior, Anthracite Headlining and BMW individual options [0940]. *[The incredibly extensive Options and Features list for this particular car is so fully detailed that it will not fit on this one page but can easily be retrieved by simply clicking the [Options & Features](#) button below. Enjoy!]*
