2007 [07] AUDI -A6 Quattro-SE 4-Dr Saloon. 3.0 TDI v6 TurboDIESEL, 233BHP, 6Spd Tiptronic Auto. One Owner F/A/S/H with complete service last week @ 9000 miles. Finished in exquisite Oyster Gray Metallic with black leather interior. The 3.0 Litre A6 Turbo-DESEL adds a dash of testosterone to the formula and yields a more aggressive stance with its deliciously low-slung bulbous body propelled on the most gorgeous brand new 19" RS designer alloys with 19" Low-Profile PIRELLI p-zero Rossos. This sleek, surreptitious dark gray Audi, sharks through the traffic effortlessly, scattering seemingly battered mass-produced bodies on wheels before it, like a startled school of minnows. In front, she has a striking one-piece trapezoidal grill that bisects the bumper, which in turn flanked by wide cut intimidating twin air intakes feeding her coolers. Behind this lies the stupendous all-wheel-drive 6-speed automatic with it's 3.0 litre 24 valve compact V6 turbo-diesel power plant producing a cool 233BHP @ 4000rpm with an exhilarating 0-60mph in less than 6.8secs or in simpler terms; 0 to delicious in no time at all. The A6 is indeed a very well designed, capably powered, safe and luxurious car. From the company that prides itself on having "Vorsprung durch Technik" [Progress through Technology] literally flowing through its veins, it is unsurprising to see the confluence of technology and common sense functionality which is ever omnipresent throughout this vehicle. The A6 is a handsome and well-proportioned beast and arguably the sportiest executive saloon in its class. She has more power and torque than her archrivals the BMW-530d and the MB E320-CDi. As a long-haul motorway express, she is without equal. She effortlessly hits a top speed of 155mph in no time at all. Her silver trim is gorgeous and even the plastic feel somehow non-plastic. She is fitted with a brand new hands-free Bluetooth GSM camera/MP3 phone sitting snugly in her cradle in centre arm-rest and is controlled from her MMI system. Once connected, all the important telephone functions are operable via the Multi-Media-Interface control unit and a bright 6.5" wide colour screen. A6's plush interior is generously draped in gorgeous supple leather spread around in perfect proportions and is intermingled with uniquely attractive silver panels. The brains of the A6 lie in its intuitive MMI that is a great deal easier to operate than BMW's iDrive system. MMI controls from the DVD Satellite Navigation System to its s/s stereo to its lighting, locking systems and is the main computing nerve centre of this car. All functions are accessible through a discerning dial with ergonomically placed set of buttons. When you combine these refinements with the "Quattro" permanent 4-wheel drive, the matching sportiness of the aluminium driveline, all aluminium Audi Space Frame body construction and an elegantly seductive interior decor with comfort seats in delicious leather and you have in the A6, a car that is setting the highest standards in performance, luxury and driving excellence. Add to this a high mid range torque at 450Nm from 1400rpm to 3250rpm and an addictively melodious snarly twin exhausts that puts a manic grin on any ones face, you have in this A6 an effortlessly accelerating cheetah on the hunt, as she swiftly darts from corner to corner, sweeping through the apexes of winding country roads with that animal grip of Quattro all-wheel drive being delivered flawlessly through all her four paws. Audi comes closer to the F1 experience in a sports executive saloon than anything else does in conjunction with the use of her crisp shift paddles. A truly delicious TDi that is the visible expression of technological perfection through innovation and embodiment of ingenious design. A car that has been painstakingly created by the very best of Ingolstadt for the discriminating in you.
